AI AUTOMATION

We build automation tailored to your business — something you now do by hand over and over starts running on its own. **We tell you the price up front**, we do not start without your approval, and the initial review is free.

WHAT WE BUILD MOST OFTEN

Invoices and documents from e-mail

An invoice arrives by e-mail; we read it, sort it and enter it into **Pohoda, Money or Excel**. Your accountant retypes nothing. It can build on Mail and Finance in Evikom.

Price quotes

A customer writes what they want and a quote with prices from your price list is ready to send. You only **check it and send it**.

Data between e-shop, CRM and spreadsheets

An e-shop order appears in the spreadsheet by itself, the customer in the CRM and stock is deducted. **No more retyping** from one window to another.

Reminders of due dates and deadlines

Overdue invoice, expiring inspection — **customer and you** get a text or e-mail reminder.

EXAMPLES FROM PRACTICE

Answers to customers

The same questions again and again. AI answers at once, even at night; **what it does not know, it hands to you** with the whole conversation.

Reports for the boss, automatically

Revenue, unpaid invoices, stock — every Monday in your inbox, no clicking through spreadsheets. **You know how the business is doing** without asking.

Transcribing paper and receipts

Photograph a receipt or delivery note and the data is in the system. Paper stops piling up in the drawer.

…AND MUCH MORE

Almost anything can be automated; it only depends on how much time it takes. **Tell us what slows you down.** Within two working days we tell you whether it is possible and what it costs.

PRICING

A fixed price by size, not counting hours. **The first 10 customers get 25 % off, Evikom customers a further 20 %** (the discounts multiply, 40 % in total; Small then starts at CZK 3,750, or CZK 3,000 with the Evikom discount). The initial consultation is free.

Small	One task, one system. For example invoices from e-mail into Excel.	from CZK 5,000 ONE-OFF
Medium	More steps, connecting 2–3 systems, AI answers to customers.	from CZK 13,000 ONE-OFF
Large	A whole process across systems. Price individual, fixed and given in advance.	from CZK 25,000 ONE-OFF
Monitoring and operation	It runs with us and we watch for errors on your behalf. The price depends on your usage, and we tell you in advance.	from CZK 500 MONTHLY, BY USAGE
Extra changes	A small tweak (text, recipient, column) CZK 50, about an hour of work CZK 150–250, most changes fit within CZK 500.	CZK 50–500 PER CHANGE

WE DO NOT CHARGE CHANGES BY THE HOUR

We always tell you the price in advance and start only once you say yes. Only replacing or rebuilding the whole automation and connecting another system is priced separately, also in advance. What cannot sensibly be automated, we tell you too.
